The expensive looks of pure silk without the creasing - and at an affordable price

SAND WASH
SILK
RANGE

Please spend a few minutes reading the World Traveller's story on the previous page and you will realize just how enthusiastic we are about this amazing fabric. If you can erase the truth from your mind that Sand Wash Silk is actually polyester, then we promise you a wearing experience of a lifetime. Sand Wash Silk not only looks and feels like silk but we promise everyone who sees and admires your shirt will think it is the most expensive silk that money can buy. The difference is that it hardly creases, can be washed and worn with little or no ironing. Fold-pack-wear, a real travellers dream. Available in 27 colours. Our most popular range with customers repeat buying practically every colour in the range.
